**CONEWAGO TOWNSHIP
STORMWATER MANAGEMENT PERMIT APPLICATION**

If you, as a property owner, are planning to construct any type of structure or improvement to your property (patio, driveway, etc.) that will impact the stormwater runoff leaving your property, then you must comply with the Township Stormwater Management Ordinance No 371. Completion of this form will allow the staff to guide you through the associated regulations.

Step 1: Complete the Project Information

Property Owner: _____

Property Address: _____

Daytime Phone Number: _____ (preferred)

Email Address: _____ (preferred)

Proposed Development (Please provide information regarding size, type, distance from property lines and existing site features, etc. Attach any manufacturer's sheets or other information related to the proposed development):

Have any other exterior improvements been completed on the property since October 3, 2023? Yes No

If yes, please list the projects and permit numbers:

Step 2: Provide Sketch Plan of Property

Plan shall include property lines, existing improvements and proposed improvements. Also include any infiltration structures and any impervious surface to be removed. Please indicate which direction the property slopes as well as provide detailed drainage information for proposed improvements such as roof breaks, gutters, downspout locations, etc. (Examples included as Attachments A1 and A2 in Small Project's Guide).

Sketch Plan Provided

Step 3: Summarize Proposed Impervious Area

- New Pavement (Parking area, driveway) _____ ft²
- New Building (Shed, Garage, Addition) _____ ft²
- Sidewalk or Patio (Concrete, Brick) _____ ft²
- Removal of existing impervious area _____ ft²
- Changing the ground surface/cover (Clearing wooded lot, converting a meadow area to yard) _____ ft²
- Farming Activities (not new buildings or impervious) – If in compliance with Chapter 102, exempted from formal submission.
- Timber Activities - If in compliance with Chapter 102, exempted from formal submission.
- Stormwater Improvement - Not associated with a new impervious area (Township Engineer to be contacted by Township)

App./Small Project Fees:	\$ 350.00
App./Large Project Fees:	\$1500.00

Step 5: Staff Consultation

Review of this form will allow Township Staff to determine what requirements of the Stormwater Management Ordinance apply to your project. Township will contact you at the phone number or email address indicated above once the internal review has been completed. You may be asked to come back to the Township Office to discuss the requirements and finalize the application.

Step 6: Approval (Township Use Only)

- Payment of Fee in Lieu of Management
- Approved Disconnected Impervious Area
- Approved Use of Small Project's Guide
- Approved Stormwater Management Site Plan (Township Engineer approval received)

Step 7: Property Owner/Applicant Certification

Please read, sign and date the application below to acknowledge and accept the requirements (including construction requirements and associated administrative items) outlined and reviewed with Township Staff.

I understand and agree to the following:

1. I will be required to construct all improvements and associated stormwater management facilities in accordance with the approved plans and details.
2. Additional stormwater planning and permitting applications are required for any future impervious areas not represented and accounted for in this application.
3. Any exemption, permit, or authorization issued or approved based on false, misleading or erroneous information provided by an applicant is void without the necessity of any proceedings for revocation. Any work undertaken or use established pursuant to such permit or other authorization is unlawful. No action may be taken by a board, agency or employee of the Township purporting to validate such a violation.
4. Upon presentation of proper credentials, the Township may enter at reasonable times upon any property to inspect the condition of the stormwater structures and facilities in regard to any aspect regulated by this Ordinance.
5. Proper management of stormwater runoff associated with this permit is the responsibility of the property owner.
