

# ELECTRICAL TIPS FOR RESIDENTIAL POOLS

# POOL BARRIER TIPS

Features such as banks, walls, etc, which could be used for diving or climbing, shall be a minimum 3' away from the pool.

Removable pool ladder may serve as a barrier if the pool sides are a minimum 48" above finished grade.

Barriers such as fences or walls shall be a minimum of 48" above finished grade

Buildings may serve as a barrier if doors and windows are equipped with a "UL" listed alarm

Latch may be located on the inside or outside of the gate if it is a minimum of 54" above finished grade

If latch is less than 54" above finished grade, latch shall be located on the inside, 3" below top, and no opening greater than 1/2" shall be located within 18" of latch

Barriers shall be a minimum of 48" above finished grade.

If fence rails are located on the outside of the fence the tops of fence rails shall be at least 45" apart

Spaces in a fence shall not allow the passage of a 4" sphere

Gates shall have self-closing hardware

If tops of fence rails are less than 45" apart the rails shall be located on the pool side of the fence
